WHO ARE 360 SUPPLY SOLUTIONS?

With our global supply network we are constantly looking for innovative products to introduce to the market, examples of these include, Kovax, eSpray, Allchem, Gekatex, Warrior, Helios & Kansai. Many of these products have been adopted by the OEM market on their manufacturing lines as cost saving and best practice solutions.

360SS can offer many different permutations of supply:

- **Centralised Store** - Supply to the process is managed and controlled by 360SS.
- **Kit Solutions** - Providing comprehensive kits to complete process: minimise wastage = maximise cost.
- **Cost Per Unit (CPU)** - This enables customers to pay a fixed price for all material required to complete a unit from start to finish.
- **Supply Chain Service** - Management of all logistics which could include Just In Time (JIT) line side supply, in sequence supply as well as waste disposal.

Understanding the needs of our clients, we can offer further value-added services including:

- **Line Side Support** - Assist in the monitoring & controlling of all key parameters to insure the process delivers optimal results.
- **System Management** - Provide the service of running & maintaining the "paint kitchen" and associated equipment to ensure consistency in paint supply to the line.

At 360SS we are more than capable of providing you with a fully comprehensive service and supply solution whatever your needs...

WHY USE 360?

We engage with paint manufacturers, automotive plants, independent producers or industry representatives in order to create a functional working experience for our customers through these relationships.

We will always guide you through choosing the best brands and products that satisfy your requirements, find application solutions in accordance with your process layout and environmental rules and troubleshoot any issue that may arise, ensuring collective growth and improvement.

OUR STANDARDS

We are committed to conducting business with the highest standards of ethics and in accordance with the laws and regulations of the countries in which we do business.

Ethics is a cornerstone of our company's heritage and remains an important part of our culture and the way we do business by exercising social and ethical responsibility in every aspect of our work—from where we source our products to the way we run our business.

At 360 Supply Solutions (360SS) we are proud to inform you that partnering with us means partnering with a credible, Level 2 BBBEE contributor with 51% Black ownership.

This affords existing and prospective customers multiple benefits under the new BBBEE Codes.

We get involved in building a sustainable future by sharing expertise, helping local enterprises to grow, and contributing to a prosperous, secure future for our country.

Collaboration is crucial to achieve the standards 360SS requires to build a completely transparent supply chain. We believe it is important to understand the journey that every single product has taken, and we're committed to sharing that journey with you.

We have pushed the limits and scoured the world to ensure we have sourced our materials from the most innovative suppliers with outstanding eco-credentials that commit to meeting internationally recognised standards of best practice. Which is why we strive to use renewable and biodegradable materials wherever possible without compromising on performance...
